# Report of the Investment Managers

## Six months to December 31, 2025

During the six months ended 31 December 2025, global equities, as measured by the MSCI All Country World Index in US-dollar terms, were supported by a shift toward easier monetary policy, generally resilient corporate earnings and continued, though increasingly uneven, enthusiasm for artificial intelligence (AI)-related investment. A key macro influence was the transition by major central banks, led by the US Federal Reserve (Fed), from holding policy steady earlier in the period to delivering rate cuts from September, which helped underpin risk appetite despite mixed growth and inflation signals. Trade developments also shaped sentiment, with agreements and periods of reduced tariff tension supporting markets at points, while intermittent renewed rhetoric and geopolitical uncertainty contributed to episodes of volatility. Sector leadership evolved over the period: information technology and communication services drove gains earlier, reflecting strong earnings momentum and AI-related spending, while later months saw broader participation from more defensive areas, such as health care and consumer staples as investors became more selective. Energy stocks were influenced by fluctuations in oil prices linked to sanctions and supply considerations, while industrials reflected a balance between improving activity indicators and concerns around global trade.

European equities advanced over the second half of 2025, supported by easing policy and receding trade tensions, even as economic growth remained subdued. The United States and European Union struck a tariff agreement in late July, restoring stability and averting further escalation. This, along with a continued truce in US–China trade relations, buoyed export-oriented industries, such as automobiles and industrials. The European Central Bank maintained an accommodative stance, holding interest rates steady after earlier cuts, amid improving eurozone demand and inflation nearing target. In contrast, the Bank of England delivered additional rate cuts, including a December reduction to 3.75%, citing easing inflation. These moves helped lift market sentiment. Eurozone gross domestic product grew modestly quarter-on-quarter in the third quarter, rebounding from near-stagnant growth in the second, and business activity ended the year on a strong note as robust services expansion offset a renewed manufacturing downturn. The eurozone thus logged its best quarterly performance since 2022 in the fourth quarter. The United Kingdom's economy followed a similar pattern, weak but positive growth through mid-period, levelling off by year-end, with UK manufacturing returning to slight expansion in December after a prolonged contraction, while services activity largely continued to grow. Stock market volatility was relatively contained and investor sentiment improved. Financials and materials, including energy and mining, outperformed, bolstered by rising bond yields and hopes of Chinese economic stimulus. However, the information technology sector lagged amid profit-taking and competitive pressures.

US stocks collectively advanced during the six months ended 31 December 2025, with major indexes reaching new record highs despite periods of elevated volatility. Equity markets were supported by resilient corporate earnings, continued investment in AI and a shift towards easier monetary policy, though sentiment fluctuated in response to trade and policy developments. Early in the period, uncertainty around US tariff policy and global trade relations contributed to bouts of risk aversion, while concerns around inflation persistence and the economic impact of tariffs intermittently weighed on markets. From September, sentiment improved as the Fed began lowering the federal funds target rate, delivering rate cuts that helped underpin equity valuations and supported risk appetite, even as policymakers emphasised data dependence. Technology stocks were a key driver of performance, reflecting ongoing AI-related investment, though leadership narrowed at times and profit-taking emerged later in the year amid investor concerns about concentration and the sustainability of gains in parts of the sector. More defensive areas such as health care and consumer staples saw periods of relative strength during episodes of heightened volatility. Macroeconomic data was mixed: growth momentum softened at points, manufacturing activity remained uneven and inflation eased but stayed above the Fed's long-run target, reinforcing a cautious policy backdrop.

In credit markets, sovereign bonds exhibited mixed performance during the second half of the year. US yields—partly contained by Fed easing—were lower, with the yield on the 10-year Treasury note falling six basis points (bps) to 4.17%. By contrast, most other developed markets saw rising yields, driven by factors including fiscal concerns, supply pressures and inflation risks. Notably, the 10-year Japanese yield rose 63 bps to 2.06%, its highest level since late 1998, on tighter monetary policy and fiscal concerns. Emerging market (EM) bond yields were mixed in Latin America and Asia, and were mostly lower in eastern Europe and Africa. Both local-currency and hard-currency EM debt indexes gained over the half-year.

Global commodity markets were defined by divergence and volatility rather than broad-based strength. While the major commodity-tracking indexes posted gains for the period, select energy and agricultural product prices softened as slowing global growth and ample supplies weighed on demand, particularly in energy markets, where US and international benchmark oil futures posted losses in the 8%–9% range and traded near five-year lows amid abundant inventories and muted consumption growth. In terms of macro and structural drivers, lower interest rate expectations, along with ongoing geopolitical risks, were powerful cross-commodity drivers, boosting safe-haven flows into hard assets. Precious metals were the period's biggest outperformers, with speculative demand surging amid trade- and tariff-related friction, military conflicts

and signs of easier monetary policy, with gold and silver reaching all-time inflation-adjusted highs by year-end. In the industrial metals complex, copper (up about 26 %) and other electrification-linked base metals were supported by structural demand from AI and data-centre expansions and utility grid infrastructure investment, along with constrained mining output from key copper and aluminium producers foremost. Battery-grade lithium rebounded sharply late in the period on renewed interest in electric vehicles and grid-scale storage. Despite modest increases in corn and soybean prices, agricultural commodities generally eased towards year-end 2025, as improved supply conditions offset earlier weather-related pressures, though select categories such as vegetable oils and dairy remained elevated. In sum, the period highlighted a clear split between cyclical commodities facing macro headwinds and structurally supported materials tied to long-term energy and technology trends. Mild currency effects were also evident, as the US dollar's value increased 1.5% versus other major currencies, which likely had a negative influence on non-US purchases of US-dollar-denominated commodities.

We enter 2026 with a constructive outlook for financial markets. A combination of fiscal support, monetary policy easing, regulatory relief and sustained private-sector investment—particularly in technology and AI—creates a favourable backdrop for continued economic expansion. While equity valuations are elevated and long-term interest rates may remain structurally higher, we believe markets continue to offer attractive opportunities for income generation and selective capital appreciation. Broadening earnings growth, improving productivity and supportive financial conditions underpin our outlook. Fixed income markets continue to offer what we consider to be attractive income opportunities. However, total return potential will likely be more muted than in 2025 given limited scope for declines in long-term interest rates and relatively tight credit spreads. Looking ahead, we are closely monitoring several key risks that could materially impact market conditions in the coming months. We would be concerned about a sharper-than-expected deterioration in the US labour market, which could coincide with renewed inflation pressures that would significantly limit the Fed's policy flexibility. Additionally, we are watching for any signs of deterioration in the AI spending outlook, as this has been a major driver of recent equity market strength. Fiscal concerns could also drive a disorderly rise in long-term interest rates. Lastly, heightened political uncertainty could introduce additional volatility.

The performance is based on the net asset values as calculated on the last business day of the period except Templeton Japan Fund. The performance for Templeton Japan Fund is based on the last published net assets value which is December 30, 2025 due to JPY holiday. Those net asset values reflect the market prices of the investments as of the last business day of the period. The performance is based on the change of the net asset value per share.

The Fund Performance disclosed in this table is the performance of the reference share class in base currency of the Fund.

Where Class A distribution "A (dis)" Shares are disclosed, the performance is calculated with all the income reinvested (total return). Information on other share classes is available on request.

<sup>1</sup> The launch date is for the Fund, however the reference share class launched at a later date.

<sup>2</sup> Fund performance prior to September 1996 excluded from calculation because a different portfolio allocation strategy was in use.

Information on other share classes is available on request. This report shall not constitute an offer or a solicitation of an offer to buy shares. Subscriptions are to be made on the basis of the current prospectus, where available the relevant Key Information Documents ("KIDs") or Key Investor Information Documents ("KIIDs"), a copy of the latest available audited annual report and, if published thereafter, the latest unaudited semi-annual report. The price of shares and income from them can go down as well as up and you may not get back the full amount that you invested. Past performance is no guarantee of future performance. Currency fluctuations may affect the value of investments.

Data source: Performance – Franklin Templeton and JPMorgan

# Notes to Financial Statements

## For the period ended December 31, 2025

### Note 1 - The Company

Franklin Templeton Investment Funds (“FTIF” or the “Company”) is a collective investment undertaking pursuant to Part I of the amended Luxembourg law of December 17, 2010 on undertakings for collective investment and qualifies as a société d’investissement à capital variable. The Company was incorporated in Luxembourg on November 6, 1990, for an undetermined period. At the date of this report, it offers shares in 82 sub-funds of the Company (the “Funds”). The Board of Directors of the Company may authorise the creation of additional Funds in future with different investment objectives.

The Company aims to provide investors with a choice of Funds investing in a wide range of transferable securities and other eligible assets on a worldwide basis and featuring a diverse array of investment objectives, including capital growth and income. The overall objective of the Company is to seek to minimise investment exposure through diversification and to provide Shareholders with the benefit of a portfolio managed by Franklin Templeton, according to its successful time-tested investment selection methods.

### Fund Launches

Franklin Core Global Enhanced Equity Fund launched on October 13, 2025.

Franklin Core U.S. Enhanced Equity Fund launched on October 13, 2025.

### Fund Closures

The remaining amount of cash at bank is USD 59,426 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin European Income Fund was put into liquidation effective November 6, 2020 and closed with a final NAV on November 13, 2020. The remaining amount of cash at bank is EUR 7,578 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin Global Aggregate Bond Fund was put into liquidation effective January 15, 2024 and closed with a final NAV on January 25, 2024. The remaining amount of cash at bank is USD 31,730 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin Global Small-Mid Cap Fund was put into liquidation effective January 11, 2021 and closed with a final NAV on January 18, 2021. The remaining amount of cash at bank is USD 238,817 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin K2 Long Short Credit Fund was put into liquidation effective April 30, 2021 and closed with a final NAV on May 14, 2021. The remaining amount of cash at bank is USD 116,945 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin NextStep Dynamic Growth Fund was put into liquidation effective November 27, 2023 and closed with a final NAV on December 5, 2023. The remaining amount of cash at bank is USD 7,500 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin NextStep Stable Growth Fund was put into liquidation effective November 27, 2023 and closed with a final NAV on December 5, 2023. The remaining amount of cash at bank is USD 10,158 as at December 31, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

### Fund Mergers

Templeton European Improvers Fund was merged into Templeton European Insights Fund on October 24, 2025. The remaining amount of cash at bank is EUR 409,182 as at December 31, 2025. The management company is monitoring the outstanding cash.

**Note 1 - The Company (continued)****Fund Mergers (continued)**

Templeton European Opportunities Fund was merged into Templeton European Insights Fund on October 24, 2025. The remaining amount of cash at bank is EUR 56,789 as at December 31, 2025. The management company is monitoring the outstanding cash.

As of December 31, 2025, the above cash balances are still open and there is no Shareholder in the Funds. The cash accounts will be closed as soon as all invoices are paid. In case of remaining cash, the amount will be distributed to Shareholders that were still invested at closure.

**Fund Name Changes**

- Franklin Global Income Fund renamed to Franklin Global Income and Growth Opportunities Fund effective from October 10, 2025.
- Martin Currie UK Equity Income Fund renamed to ClearBridge UK Equity Income Fund effective from September 30, 2025.
- Templeton BRIC Fund renamed to Templeton BIC Fund effective from December 09, 2025.
- Templeton Global Balanced Fund renamed to Templeton Global Value and Income Fund effective from July 16, 2025.
- Templeton Global Bond (Euro) Fund renamed to Templeton Sustainable Global Bond (Euro) Fund effective from September 30, 2025.

**Share Class Name change**

Effective July 28, 2025, the share class listed below has been renamed:

- Templeton Global Leaders Fund: Share class was renamed from A (Mdis) USD to A (Mdis-Plus) USD.

**Note 2 - Significant accounting policies****(a) General**

The financial statements are prepared in accordance with the regulations of the Grand Duchy of Luxembourg relating to investment funds under the going concern basis of accounting with the exception of Templeton European Small-Mid Cap Fund which merged effective January 16, 2026. Hence the financial statements for this sub-fund has been prepared on a non-going concern basis. The application of this basis of accounting has not led to material adjustments to the sub-fund's published net asset value.

**(b) Investment in securities**

Securities which are listed on a stock exchange or traded on any other organised market are valued at the last available price on such exchange or market which is normally the principal market for each security, and those securities dealt in on an over-the-counter market are valued in a manner as near as possible to that for quoted securities.

Securities not listed on any stock exchange nor traded on any organised market are valued at the last available price, or if such price is not representative of their fair value, they are valued prudently and in good faith on the basis of their reasonably foreseeable sales prices.

In accordance with the provisions of the current prospectus, Market Level Fair Valuation may be implemented to protect the interests of the Company's shareholders against market timing practices, as market timers may seek to exploit possible delays between the change in the value of a Fund's portfolio holdings and the Net Asset Value of the Fund's Shares in Funds that hold significant investments in foreign securities because certain foreign markets close several hours ahead of the US markets, and in Funds that hold significant investments in small-cap securities, high-yield (junk) bonds and other types of investments which may not be frequently traded.

**Note 2 - Significant accounting policies (continued)**

**(b) Investment in securities (continued)**

The Company's directors are using several methods to reduce the risk of market timing. As at December 31, 2025, a Market Level Fair Valuation was applied to the following Funds:

ClearBridge UK Equity Income Fund  
Franklin Alternative Strategies Fund  
Franklin Biotechnology Discovery Fund  
Franklin Core Global Enhanced Equity Fund  
Franklin Disruptive Commerce Fund  
Franklin Diversified Balanced Fund  
Franklin Diversified Conservative Fund

**Note 2 - Significant accounting policies (continued)****(b) Investment in securities (continued)**

Templeton Global Income Fund  
 Templeton Global Leaders Fund  
 Templeton Global Smaller Companies Fund  
 Templeton Global Value and Income Fund  
 Templeton Growth (Euro) Fund  
 Templeton Latin America Fund

The Company has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. In such circumstances, the price of such investment shall be adjusted in accordance with the procedures adopted, as determined by or under the direction of the Board of Directors.

During the accounting period under review, gains and losses on investment securities sold were computed on the average cost basis for all Funds with the exception of the Franklin High Yield Fund, the Franklin Income Fund, the Franklin U.S. Government Fund, the Templeton Asian Bond Fund and the Templeton BIC Fund which were computed on the first-in, first-out basis.

During the accounting period under review, discounts and premiums were amortised to income over the period to maturity.

For mortgage-backed and other similar holdings with scheduled debt paydowns, the funds record accruals, based on their historical experience, for anticipated paydowns. Such accruals are recorded as a reduction or increase to the related holdings as disclosed on the Schedule of Investments and are included in the related unrealised appreciation/depreciation on investments shown on the "Statement of Operations and Changes in Net Assets".

Money market instruments are valued at market value.

On February 24, 2022, Russia began military operations in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine has increased market volatility and the economic risk of investing in securities in these countries and other impacted countries within the region. Due to the sanctions, actions by governments, developments in Ukraine itself and other circumstances, the Manager continues to assess the impact on valuation and liquidity and will take any potential actions needed, in accordance with the Funds' valuation policies and procedures. The Russian equity securities are priced at nil as at December 31, 2025.

Exposure within the sub-funds have been summarised as follows (exposure is limited to non-equity holdings as the equities have been fair valued at nil):

<b>Funds</b>	<b>As of</b>	<b>% Ukraine</b>	<b>% Russia</b>	<b>% Belarus</b>	<b>% Total Exposed</b>
Franklin Alternative Strategies Fund	31/12/2025	0.11%	0.00%	0.00%	0.11%
Franklin Emerging Market Corporate Debt Fund	31/12/2025	0.89%	0.00%	0.00%	0.89%
Franklin Emerging Markets Debt Opportunities Hard Currency Fund	31/12/2025	0.84%	0.00%	0.00%	0.84%

**(c) Forward foreign exchange contracts**

Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the remaining period, until maturity. Gains or losses resulting from forward foreign exchange contracts are recognised in the "Statement of Operations and Changes in Net Assets".

**(d) Financial future contracts**

The Company may enter into financial future contracts to gain exposure to market changes. A financial future contract is an agreement between two parties to buy or sell a security for a set price on a future date. Required initial margin deposits of cash or securities are maintained by a broker in a segregated account. Subsequent payments, known as variation margin, are made or received by the Company depending on the fluctuations in the value of the underlying securities. Such variation margin is accounted for as unrealised gains or losses until the contract is closed, at which time the gains or losses are reclassified to realised gains or losses. Realised and unrealised gains and losses are included in the "Statement of Operations and Changes in Net Assets".

## **Note 2 - Significant accounting policies (continued)**

### **(e) Interest rate swap contracts**

Interest rate swap contracts are used to hedge the risk of changes in interest rates and are agreements between two parties to exchange cash flows based on a notional principal amount. The net interest received or paid on interest rate swap contract agreements is accrued daily as interest income/expense.

Interest rate swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of interest rate swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

### **(f) Inflation swap contracts**

An inflation swap contract is a bilateral agreement used to transfer inflation risk from one party to another through an exchange of cash flows.

Inflation swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of inflation swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement. The funds had no exposure as at December 31, 2025.

### **(g) Cross currency swap contracts**

A cross currency swap is an agreement between two parties to exchange interest payments and principals denominated in two different currencies. Cross currency swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of cross currency swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement. The funds had no exposure as at December 31, 2025.

### **(h) Total return swap contracts**

A total return swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains.

Total return swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of total return swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

**Note 2 - Significant accounting policies (continued)****(i) Contracts for difference**

Contracts for difference are contracts entered into between a broker and the Fund under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place.

Upon entering into contracts for difference, the Fund may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ("initial margin"). Subsequently, payments known as "variation margin" are made or received by the Fund periodically depending on fluctuations in the value of the underlying security.

The market value of CFDs is determined by the last known traded price on the exchange on which the underlying securities or assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

Contracts for differences are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

**(j) Credit default swap contracts**

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic payment for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual users.

Credit default swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

The risks of credit default swap contracts include unfavourable changes in interest rates, an illiquid secondary market and the possible inability of the counterparty to fulfil its obligations under the agreement, which may be in excess of the amount reflected in the "Statement of Net Assets".

**(k) Option contracts**

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract-stated expiration date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium (original option value) and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

The risks include price movements in the underlying securities, the possibility there may be an illiquid options market, or the inability of the counterparties to fulfil their obligations under the contract.

The Company writes options on securities, futures and interest rate swaps ("swaptions"). These options are settled in cash and subject the Company to unlimited risk of loss. The Company, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

The market values are recorded under "Option Contracts at Market Value" in the "Statement of Net Assets".

## Note 2 - Significant accounting policies (continued)

### (l) Foreign exchange transactions

Transactions expressed in currencies other than each Fund's currency are translated into each Fund's currency at the exchange rates applicable on the transaction dates.

Assets and liabilities denominated in currencies other than each Fund's currency are translated into each Fund's currency at the appropriate exchange rates ruling at the period end. Gains and losses on foreign exchange transactions are recognised in the "Statement of Operations and Changes in Net Assets" in determining the results for the accounting period.

The reference currency of the Company as reflected in the financial statements is U.S. dollar. The principal exchange rates applied as at December 31, 2025 are as follows:

AED	3.6728	GBP	0.7419	MXN	18.0075	RUB	79.1000
AUD	1.4985	GHS	10.5000	MYR	4.0580	SAR	3.7508

EGP	47.7000	KZT	507.4000	RON	4.3347		
EUR	0.8509	MAD	9.1160	RSD	99.8050		

The above exchange rates have been rounded to four decimal places.

The list of the currency abbreviations is available in note 29.

### (m) Mortgage dollar rolls

In a mortgage dollar roll, a Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (name, type, coupon, and maturity) securities on a specified future date. During the period between the sale and repurchase, the Fund foregoes principal and interest paid on the mortgage-backed securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase, as well as by the interest earned on the cash proceeds of the initial sale.

Mortgage dollar rolls are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

The difference between the current sales price and the lower forward price is treated as realised gain.

The market values are recorded under "Investment in mortgage dollar rolls at market value" or under "Open Short Positions on mortgage dollar rolls" in the "Statement of Net Assets".

### (n) Income

Dividends are credited to income on their ex-dividend date. Interest income is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest is credited to the funds upon receipt. Swap interest where applicable is recorded in accordance with the terms of the relevant swap deal. Sundry income are principally comprised of derivative income – net margin interest/price alignment on futures, options, accrual adjustments pertaining to consent fees.

**Note 2 - Significant accounting policies (continued)****(o) Securities lending**

To the extent permitted in the relevant Fund's investment policy, a Fund may utilise, on a temporary basis, up to 50% of its assets for securities lending transactions. The volume of the securities lending transactions of each Fund shall be kept at an appropriate level or each Fund shall be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of each Fund's assets in accordance with its investment policy. The counterparties to securities lending transactions are selected following an initial analysis, and subsequent annual review thereafter, of financial statements, company announcements, credit ratings and other market information which includes general market movements. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process. Loans will be secured continuously by collateral which must at least equal the value of the securities lent. Securities lending income is disclosed under the caption "Securities lending" in the "Statement of Operations and Changes in Net Assets". Any transaction expenses in connection with the loans are charged to the concerned Fund.

**(p) Formation expenses**

Formation expenses associated with the launch of the new Funds are expensed as incurred.

**(q) Swing pricing**

A Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

To counter this dilution impact and to protect Shareholders' interests, a swing pricing mechanism may be adopted by the Company as part of its valuation policy.

The Fund operates a swing pricing mechanism which is applied when the total estimated capital activity (aggregate of estimated inflows and outflows) at a Fund level exceeds a pre-determined threshold, as determined as a percentage of the net assets of that Fund for the Valuation Day. Funds can operate a full swing pricing mechanism where the threshold is set to zero or a partial swing pricing mechanism where the threshold is greater than zero.

Typically, such adjustment will increase the Net Asset Value per Share when there are net inflows into the Fund and decrease the Net Asset Value per Share when there are net outflows. The Net Asset Value per Share of each Share Class in a Fund will be calculated separately but any adjustment will, in percentage terms, affect the Net Asset Value per Share of each Share Class in a Fund identically. Swing pricing does not address the specific circumstances of each individual investor transaction.

The adjustments will seek to reflect the anticipated prices at which the Fund will be buying and selling assets as well as estimated transaction costs.

Investors are advised that the volatility of the Fund's Net Asset Value might not reflect the true portfolio performance as a consequence of the application of swing pricing.

The size of the adjustment impact is determined by factors such as the volume of transactions, the purchase or sale prices of the underlying investments and the valuation method adopted to calculate the value of such underlying investments of the Fund.

The swing pricing mechanism may be applied across all Funds of the Company. The extent of the price adjustment will be reset by the Company on a periodic basis to reflect an approximation of current dealing and other costs. Such adjustment may vary from Fund to Fund and under normal conditions will not exceed 2% of the original Net Asset Value per Share. The Board of Directors can approve an increase of this limit in case of exceptional circumstances, unusually large Shareholders trading activities, and if it is deemed to be in the best interest of Shareholders.

The Management Company mandates authority to the Swing Pricing Oversight Committee to implement and on a periodic basis review, the operational decisions associated with swing pricing. This committee is responsible for decisions relating to swing pricing and the ongoing approval of swing factors which form the basis of pre-determined standing instructions.

## **Note 2 - Significant accounting policies (continued)**

### **(q) Swing pricing (continued)**

The price adjustment is available on request from the Management Company at its registered office.

On certain share classes, the Management Company may be entitled to a performance fee, where applicable, this will be based on the unswung NAV.

No swing pricing applied as at December 31, 2025.

During the period swing pricing adjustments affected the net asset value per share of the following Funds:

ClearBridge UK Equity Income Fund  
Franklin Core Global Enhanced Equity Fund  
Franklin Core U.S. Enhanced Equity Fund  
Franklin Disruptive Commerce Fund  
Franklin Emerging Market Corporate Debt Fund  
Franklin Flexible Alpha Bond Fund  
Franklin Global Convertible Securities Fund  
Franklin Gold and Precious Metals Fund  
Franklin Gulf Wealth Bond Fund  
Franklin U.S. Low Duration Fund  
Templeton Asian Growth Fund  
Templeton Asian Smaller Companies Fund  
Templeton Emerging Markets Fund  
Templeton Emerging Markets Smaller Companies Fund  
Templeton Emerging Markets Sustainability Fund  
Templeton European Insights Fund  
Templeton European Small-Mid Cap Fund  
Templeton Frontier Markets Fund  
Templeton Global High Yield Fund  
Templeton Global Smaller Companies Fund  
Templeton Global Total Return Fund  
Templeton Latin America Fund

### **(r) Combined financial statements**

The accounts of the Fund are expressed in U.S. dollar and the accounts of the sub-funds are kept in the currency of each sub-fund. The combined "Statement of Net Assets" and the combined "Statement of Operations and Changes in Net Assets" are the sum of the "Statement of Net Assets" and the "Statement of Operations and Changes in Net Assets" of each sub-fund converted into the currency of the Fund using exchange rates prevailing at period-end.

### **(s) Capital Stock Transactions – Recognition**

Capital stock transactions, including subscriptions and redemptions, are recorded on a T+1 basis in the accounting records. As a result, these transactions are reflected up to the valuation day immediately preceding the Net Asset Value (NAV) date.

### **(t) Reverse Repurchase Agreements**

A reverse repurchase agreement, often referred to as a "reverse repo," is a financial transaction in which one party purchases securities from another party with an agreement to sell them back later date. This transaction effectively allows the fund to lend cash to the counterparty, using the purchased securities as collateral, while earning interest income over the term of the agreement. The amounts lent in a reverse repo transaction are recorded in the Statement of Net Assets as a receivable under "Amounts receivable on reverse repurchase agreements" The income earned is recognised over the term of the agreement is included in the Statement of Operations and Changes in Net Assets under "Interest income on debt securities."

### Note 3 - Cross Funds Investments

Some Funds may invest into shares of UCITS and other open and closed end UCIs which may include other Funds of Franklin Templeton Investment Funds. As at December 31, 2025, the following Funds held shares issued by another Fund of the Company.

	Currency	Investment in securities at market value as per Statement of Net Assets	Market value of Cross Funds investment	Investment in securities at market value after deduction of Cross Funds investments
Franklin Diversified Balanced Fund	EUR	151,474,796	1,361,555	150,113,241
Franklin Diversified Conservative Fund	EUR	53,825,004	1,103,028	52,721,976
Franklin Diversified Dynamic Fund	EUR	166,573,216	2,137,968	164,435,248
Franklin Flexible Alpha Bond Fund	USD	159,913,331	13,097,123	146,816,208
Franklin Global Multi-Asset Income Fund	EUR	94,998,066	3,138,891	91,859,175
Franklin NextStep Conservative Fund	USD	27,076,770	4,425,440	22,651,330
Franklin NextStep Growth Fund	USD	35,268,243	7,096,183	28,172,060
Franklin NextStep Moderate Fund	USD	76,306,577	14,835,283	61,471,294
Templeton Asian Growth Fund	USD	1,893,096,192	24,599,611	1,868,496,581
Templeton Emerging Markets Dynamic Income Fund	USD	166,437,633	11,796,746	154,640,887

The total combined net assets at period-end without Cross Funds investments would amount to USD 84,129,814,497.

\*Please refer to Note 1 for fund events.

**Note 15 - Investment management fees**

The Management Company receives from the Company a monthly investment management fee equivalent to a certain percentage per annum (as detailed below) of each Fund's average daily net assets during the accounting period. When Funds invest in other Franklin Templeton funds, a management fee is not applied to the amounts invested. The following percentages apply in respect of the different Funds as at period end.

The Investment Managers will be remunerated by the Management Company out of the investment management fee received from the Company.

No management fee is payable by an investor on the acquisition of Class X and Class Y shares, instead a fee is paid to the Investment Manager or affiliates under a separate agreement.

\*Please refer to Note 1 for fund events.

**Note 16 - Performance fees**

The Management Company may be entitled to receive from the net assets attributable to a share class an annual performance-based incentive fee (the "Performance Fee") which, if applicable, will be calculated and accrued daily and payable as of the end of each fiscal year.

The performance fee becomes due in the event of outperformance, that is, if the increase in the NAV during the relevant performance period (after deduction of any subscription and/or redemption fees levied) exceeds (i) the increase in the target benchmark over the same period and (ii) the applicable high water mark point as defined in the prospectus.

If Shareholders redeem all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallise on that dealing day and will then become payable.

For the purpose of the Performance Fee calculation:

High Water Mark is calculated by reference to (i) the initial launch price or (ii) the NAV as of the last valuation day which formed the basis of an accrual within the relevant performance period, for which a performance fee was paid, whichever is the higher. The high-water mark is the highest peak in value that an investment fund has reached. The high-water mark ensures the fund does not pay for recovery of past performance.

Target NAV is the High Water Mark adjusted by the daily target benchmark return, where the target benchmark is the applicable benchmark as indicated above and is expressed in the currency in which the relevant share class is denominated or hedged into.

Performance period refers to each fiscal year, except where a share class with a performance fee is launched during the fiscal year, in which case its first performance period will commence on the launch date. Please refer to the prospectus for more details.

The following performance fees apply in respect of the PF(Performance fee) shares during the period ended December 31, 2025.

**Note 16 - Performance fees (continued)**

**Note 17 - Soft commission**

Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the Company may be directed by the Investment Managers to broker-dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such broker-dealers.

The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms.

Such services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are paid for directly by the Investment Managers.

**Note 18 - Connected party transactions**

Certain Directors of the Company are or may also be Officers and/or Directors of one or more of the various Investment Managers of the Funds, among others, Franklin Templeton Investments (Brasil) Ltd., Franklin Templeton Investments (Asia) Limited, Templeton Investment Counsel, LLC and Franklin Templeton Institutional, LLC. All transactions with connected parties were entered into in the ordinary course of business and under normal commercial terms. The investment management fees that are accrued by the Company in respect of the Management Company are detailed in note 15 to the financial statements.

There are no connected brokers in Franklin Templeton, and no transactions were entered into with connected brokers during the period ended December 31, 2025.

During the period ended December 31, 2025, the Company accrued administration and transfer agency fees and shares' maintenance and service charges in respect of Franklin Templeton International Services S.à r.l. as Management Company and Principal Distributor of the Funds.

Any investment in Cross Funds as defined in Note 3 or products issued by Franklin Templeton are made at normal market condition.

**Note 19 - Taxation**

Under current tax laws and practice, the Company is not liable in the Grand Duchy of Luxembourg to any taxes on income or on realised or unrealised capital gains.

The Company is liable in the Grand Duchy of Luxembourg to a tax of 0.05% per annum, such tax being paid quarterly, and calculated on the net asset value of each Fund at the end of each relevant quarter (except the Franklin U.S. Dollar Short-Term Money Market Fund for which the rate is 0.01%). This tax is not applicable for the portion of the assets of a Fund invested in other undertakings for collective investment that have already been subject to such tax. Class I shares, Class J shares, Class P1 shares, Class X shares and Class Y shares may benefit from a reduced rate of 0.01% per annum if all shareholders of these share classes are institutional investors.

Investment income received or capital gains realised by the Company may be subject to tax in the countries of origin. All liabilities in respect of taxes payable on unrealised capital gains on investments are provided for as soon as there is a reasonable certainty that a liability will crystallise.

**Note 19 - Taxation (continued)**

No stamp duty or other tax is payable in the Grand Duchy of Luxembourg on the issue of shares in the Company.

The Company is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current laws.

**Note 20 - Share classes**

Class A shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1.00%, retained by the Principal Distributor, applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class AS shares: are offered in Singapore to CPF Investors as more fully described in the current prospectus of the Company. Class AS shares are offered at the applicable net asset value and are not subject to an entry charge. In addition, a maintenance charge of up to 0.40% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor.

Class AX shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% (except for the Franklin Diversified Conservative Fund which has an entry charge of up to 5.00%) of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1.00% applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class C shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of 1.00% if an investor redeems shares within one year of purchase. In addition, a maintenance charge of 1.08% per annum of the applicable average net asset value is deducted. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other party.

Class F shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3.00% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class F shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class G shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3.00% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.10% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class G shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class I shares: are offered to institutional investors as more fully described in the current prospectus of the Company. Purchases of Class I shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class J shares: are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company. Purchases of Class J shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class N shares: are subject to an entry charge of up to 3.00% of the total amount invested. In addition, a maintenance charge of up to 1.25% per annum of the applicable average net asset value is accrued daily and is deducted and paid monthly to the Principal Distributor. Class N shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

**Note 20 - Share classes (continued)**

Class P1/ P2 shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class P1/ P2 shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Q Shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3.00% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.50% per annum of the average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class Q shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class S shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class S shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class W shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class W shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class X shares: are not subject to an entry charge and no management fees will be payable by an investor on the acquisition of Class X shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class X shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Y shares: are not subject to an entry charge and no management, registrar, transfer, corporate, domiciliary or administration fees will be payable by an investor on the acquisition of Class Y shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class Y shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Z shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class Z shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Accumulating shares (acc): do not distribute any dividends but the income attributable is reflected in the increased value of the shares. All other terms and conditions are the same as those which apply to distributing share classes.

Distributing shares: may have different frequencies. (Mdirc) & (Mdis) share classes distribute monthly, (Qdis) share classes distribute quarterly, (Bdis) share classes distribute bi-annually and (Ydis) share classes distribute annually.

Class dirc shares: are distributing share classes with the suffix "dirc" are offered as part of a currency hedged share class.

Class Plus shares: are distribution share classes designed to offer, under normal market conditions, dividend distribution at a pre-determined annual percentage of the Net Asset Value per Share that is not linked to income or capital gains.

Performance fee classes: are classes that are subject to performance fees and are denoted by the inclusion of "PF" in their names.

Hedged share classes: In respect of hedged share classes, the Company offers the following alternatives:

- H1: in order to reduce exchange rate fluctuations and return fluctuations, the base currency exposure of the Fund is hedged into the hedged share class alternative currency.
- H2: a hedging strategy is applied in order to reduce the risk of currency movements between the currency of the hedged share class and other material currencies of the securities and cash held by the Fund.

**Note 21 - Directors Fees**

For their role and services to the Board, the Independent Directors of the Board are remunerated an aggregate amount of EUR 350,000 per annum and an additional aggregate amount of EUR 30,000 per annum for membership and activities of the Board Committees. The rest of the Board members waive any right to remuneration.

**Note 22 - Expenses reimbursement**

On a daily basis, for share classes where the expenses are capped, the level of expenses is calculated and compared to the cap and where the level of expenses is higher than the cap, this difference is booked as a decrease of expense (the "waiver fees"). The performance fees do not form part of the capped expenses. On a monthly basis the waiver fees are deducted from the fees received by Franklin Templeton International Services S.à r.l.

The amount of waiver fees is disclosed as "Expenses reimbursement" in the "Statement of Operations and Changes in Net Assets".

**Note 23 - Other Charges**

Other expenses mainly consist of legal fees, registration & filing fees, paying agent fees, tax fees and miscellaneous fee/expense.

**Note 24 - Statement of changes in the investment portfolio**

A list, specifying for each Fund total purchases and sales transacted during the period under review, may be obtained, upon request, at the registered office of the Company.

**Note 25 - Transaction costs**

Transaction costs are costs incurred to acquire and dispose of financial assets or liabilities. They include fees and commissions paid to agents, brokers and dealers. During the period ended December 31, 2025, the Company incurred the following transaction costs:

<sup>\*</sup>Please refer to Note 1 for fund events.

<sup>#</sup>For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

**Note 26 - Equalisation**

The Funds use an accounting practice known as equalisation, by which a portion of the proceeds from issues and the costs of sale of shares, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transaction, is credited or charged to undistributed income. As a result, undistributed net investment income per share is unaffected by issues or redemptions of shares. However, in respect of any Fund offering only Accumulation Shares, the Board of Directors and/or the Management Company reserves the right not to apply equalisation.

**Note 27 - Total Expense Ratio**

The Total Expense Ratio ("TER"), expressed as a percentage, represents how the total annualised expenses of each share class relate to the average net assets of each share class for the period ended December 31, 2025. The total expenses comprise the investment management fees, maintenance and service charges, the administration and transfer agency fees, the custodian fees and other expenses. However, TER does not include performance fees as summarised in the "Statement of Operations and Changes in Net Assets".

For share classes launched during the period, the TER is annualised.

**Note 28 - Global Credit facility**

The Company together with other European and U.S. registered investment funds managed by Franklin Templeton (individually, "Borrower"; collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling USD 2,995 million (Global Credit Facility) to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability, to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the company and other costs incurred by the Company, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

During the financial period ended December 31, 2025, the Company did not use the Global Credit Facility.

## Note 30 - Additional Information

Following the invasion of Ukraine by Russia and sanctions that followed, the Russian assets held by the Fund as of February 25, 2022 were segregated from the liquid assets of the Templeton Eastern Europe Fund and allocated to seven share classes newly created on November 11, 2022 (the "Restricted Share Classes"). Shares in such new classes listed below were allocated to shareholders on November 11, 2022 in a manner to reflect their respective percentage holdings in the Fund's total NAV as of February 25, 2022. The Restricted Share Classes are closed to all subscriptions, redemptions, and switches.

Restricted Share Classes - A (acc) EUR RC, A (acc) USD RC, A (Ydis) EUR RC, I (acc) EUR RC, N (acc) EUR RC, W (acc), EUR RC, X (acc) EUR RC.

The following table reports the collateral held as at December 31, 2025 to reduce counterparty exposure on reverse repurchase agreements.

Fund	Counterparty	Collateral currency	Cash held as collateral	Sovereign Bonds held as collateral
Franklin U.S. Dollar Short-Term Money Market Fund	MUFG Securities EMEA PLC	USD	–	306,015,787

## Portfolio Turnover Ratio

The portfolio turnover ratio, expressed as a percentage, is equal to the total of purchases and sales of securities netted against the total value of subscriptions and redemptions, over average net assets of the Fund for the 12 months period. It is effectively a measure of how frequently a Fund buys or sells securities.

The portfolio turnover ratio calculation is not applicable to Liquid Reserve and Money Market Funds, as such a ratio is not relevant to such Funds due to the short-term nature of the investments.

Funds	Portfolio Turnover Ratio
ClearBridge UK Equity Income Fund*	2.90%
